**MESINIAGA BERHAD (79244-V)**  
**UNAUDITED QUARTERLY REPORT ON FINANCIAL RESULTS FOR THE**  
**FOURTH QUARTER ENDED 31 DECEMBER 2019**

---

**A. EXPLANATORY NOTES TO THE INTERIM FINANCIAL REPORT –**  
**FINANCIAL REPORTING STANDARD**

**A1. BASIS OF PREPARATION**

The unaudited quarterly financial statements have been prepared in accordance with MFRS 134: *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board (“MASB”), and Paragraph 9.22 and Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The unaudited quarterly financial statements should be read in conjunction with the Group’s audited annual financial statements for the financial year ended 31 December 2018. The audited financial statements of the Group for the year ended 31 December 2018 were prepared in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The accounting policies and presentation adopted by the Group for the quarterly financial statements are consistent with those adopted in the Group’s consolidated audited financial statements for the financial year ended 31 December 2018, except for the adoption of the following MFRS and Amendments to MFRS during the current financial period:

(i) Effective from financial year beginning on or after 1 January 2019

- MFRS 16 “Leases” supersedes MFRS 117 “Leases” and the related interpretations.

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on balance sheet) or operating leases (off balance sheet). MFRS 16 requires a lessee to recognise a “right-of-use” of the underlying asset and a lease liability reflecting future lease payments for most leases.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 ‘Property, Plant and Equipment’ and the lease liability is accreted over time with interest expense recognised in the income statement.

For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

- IC Interpretation 23 ‘Uncertainty over Income Tax Treatments’ provides guidance on how to recognise and measure deferred and current income tax assets and liabilities where there is uncertainty over a tax treatment.

If an entity concludes that it is not probable that the tax treatment will be accepted by the tax authority, the effect of the tax uncertainty should be included in the period when such determination is made. An entity shall measure the effect of uncertainty using the method which best predicts the resolution of the uncertainty. IC Interpretation 23 will be applied retrospectively.

- Amendments to MFRS 128 ‘Long-term Interests in Associates and Joint Ventures’ clarify that an entity should apply MFRS 9 ‘Financial Instruments’ (including the impairment requirements) to long-term interests in an associate or joint venture, which in substance form part of the entity’s net investment, for which settlement is neither planned nor likely to occur in the foreseeable future.

In addition, such long-term interests are subject to loss allocation and impairment requirements in MFRS 128. The amendments shall be applied retrospectively.

- Amendments to MFRS 9 ‘Prepayment features with negative compensation’ allow companies to measure some prepayable financial assets with negative compensation at amortised cost. Negative compensation arises where the contractual terms permit the borrower to prepay the instrument before its contractual maturity, but the prepayment amount could be less than the unpaid amounts of principal and interest. To qualify for amortised cost measurement, the negative compensation must be reasonable compensation for early termination of the contract, and the asset must be held within a ‘held to collect’ business model. The amendments will be applied retrospectively.
- Annual Improvements to MFRSs 2015 – 2017 Cycle:

Amendments to MFRS 3 ‘Business Combinations’ clarify that when a party obtains control of a business that is a joint operation, the acquirer should account the transaction as a business combination achieved in stages. Accordingly, it should remeasure its previously held interest in the joint operation (rights to the assets and obligations for the liabilities) at fair value on the acquisition date.

Amendments to MFRS 11 ‘Joint Arrangements’ clarify that when a party obtains joint control of a business that is a joint operation, the party should not remeasure its previously held interest in the joint operation.

Amendments to MFRS 112 'Income Taxes' clarify that where income tax consequences of dividends on financial instruments classified as equity is recognised (either in profit or loss, other comprehensive income or equity) depends on where the past transactions that generated distributable profits were recognised. Accordingly, the tax consequences are recognised in profit or loss when an entity determines payments on such instruments are distribution of profits (that is, dividends). Tax on dividend should not be recognised in equity merely on the basis that it is related to a distribution to owners.

Amendments to MFRS 123 'Borrowing Costs' clarify that if a specific borrowing remains outstanding after the related qualifying asset is ready for its intended use or sale, it becomes part of general borrowings.

Amendments to MFRS 119 'Plan amendment, curtailment or settlement' requires an entity to use the updated actuarial assumptions from remeasurement of its net defined benefit liability or asset arising from plan amendment, curtailment or settlement, to determine current service cost and net interest for the remaining period after the change to the plan. The amendments will be applied prospectively.

Based on the work performed to date, the Company does not currently expect the impact of these changes to be significant.

- (ii) Effective from financial year beginning on or after 1 January 2020 with earlier application permitted
  - Amendments to MFRS 3 'Definition of a Business' revise the definition of a business. To be considered a business, an acquisition would have to include an input and a substantive process that together significantly contribute to the ability to create outputs.

The amendments provide guidance to determine whether an input and a substantive process are present, including situation where an acquisition does not have outputs. To be a business without outputs, there will now need to be an organised workforce. It is also no longer necessary to assess whether market participants are capable of replacing missing elements or integrating the acquired activities and assets.

In addition, the revised definition of the term 'outputs' is narrower and focusses on goods or services provided to customers, generating investment returns and other income but excludes returns in the form of cost savings.

The amendments introduce an optional simplified assessment known as 'concentration test' that, if met, eliminates the need for further assessment. Under this concentration test, if substantially all of the fair value of gross assets acquired is concentrated in a single identifiable asset (or a group of similar assets), the assets acquired

would not represent a business. The amendments shall be applied prospectively.

The effect of the amendments to these standards are currently being assessed by the Directors of the Company.

A2. AUDIT REPORT OF PRECEDING ANNUAL FINANCIAL STATEMENTS

The audit report of the Group's Annual Financial Statements for the year ended 31 December 2018 was not subject to any qualification.

A3. SEASONALITY OR CYCLICALITY OPERATIONS

The Group's operations are not significantly affected by any seasonal or cyclical factors.

A4. UNUSUAL ITEMS

There were no items affecting the assets, liabilities, equity, net income, or cash flows that are unusual because of their nature, size, or incidence.

A5. MATERIAL CHANGES IN ACCOUNTING ESTIMATES

There were no changes in accounting estimates of amounts reported in prior interim periods or the current financial year or changes in estimates of amounts reported in prior financial years.

A6. ISSUANCE OR REPAYMENT OF DEBTS AND EQUITY SECURITIES

A12. CHANGES IN CONTINGENT LIABILITIES OR CONTINGENT ASSETS

There were no contingent liabilities or contingent assets to be disclosed.

**B. BURSA MALAYSIA LISTING REQUIREMENTS**

B1. REVIEW OF THE PERFORMANCE

The Group recorded revenue of RM313.4 million for the year ended 2019 which is 73% higher than the comparative period in 2018 of RM180.9 million. A profit before tax of RM2.2 million was recorded in the year of 2019 compared to a loss before tax of RM7.9 million in the same period of 2018.

The higher revenue and profit for the year were due to the progressive recognition of revenue related to several significant projects during the fourth quarter of the year.

B2. MATERIAL CHANGES IN THE QUARTERLY RESULTS

For the quarter ended 31 December 2019, the Group recorded a revenue of RM 212.4 million which is 465% higher than the preceding quarter of RM37.6 million. The Group recorded a profit before tax of RM13.8 million in the current quarter compared to a loss before tax of RM2.7 million in the preceding quarter.

### B3. PROSPECTS

The positive results for the quarter ended 31 December 2019 were enough to reverse the losses for the first 3 quarters of 2019. The performance in the final quarter of 2019 was bolstered by the award of a very large contract. Without this contract, the profit in the final quarter would have been inadequate to reverse the earlier losses. Having said this, there is evidence that changes and efforts made to improve performance are beginning to produce results.

A great deal of uncertainty hangs over the economy, both domestic and global. There are concerns over the degree of financial damage caused by the Covid-19 outbreak and whether it will precipitate a global recession. The fourth quarter growth in the Malaysian economy was reported at 3.6%, the lowest since 2009, and before the seriousness of the Covid-19 outbreak became evident. With this backdrop, success in 2020 will be hard won, but the company will continue to drive the changes that produced an improved performance in the final quarter of 2019. These changes are anticipated to translate into improved competitiveness and cost structure, and the company expects that it will still be able to register a positive result in 2020.

### B4. VARIANCES FROM PROFIT FORECAST AND PROFIT GUARANTEE

Not applicable as there were no profits forecast and profit guarantee published.

### B5. TAXATION
